Dear Josh:

Thank you again for your generous presence (plus hospitality plus interventions) at the SSRC planning meeting. Hope to see you at the full committee meeting on February 7.

In line with our conversation, I enclose a letter of nomination of Hans Bethe for the J. M. Luck-NAS award for scientific reviews. Not being sure to whom to send it if you are not the right recipient, may I ask you to forward it? (If credit is needed, it should be given also to my Research Associate, Dr. Katherine Sopka.)

With best regards,
